FASHIONABLE CLOTHING

—AT—
Greatly Reduced Prices.

FIRST-CLASS GOODS AND
FIRST-CLASS WORKMANSHIP.

A more varied and finer stock of cloths to choose from than ever, but owing to the prevailing depression and lower rates for work, we are selling our goods at Very Greatly Reduced Prices from heretofore, at the same time retaining the well-known Excellence of Work and Perfect Fit that have given Our Goods First Place.

GEO. R. JACKSON & CO.,
FIVE SISTERS BLOCK, 27 GOVERNMENT STREET

Ogilvie's Hungarian Flour

(MILLED UNDER NEW AND UNPARALLELED METHODS)
PRODUCES MORE BREAD PER BARREL THAN ANY OTHER IN THE MARKET.

This Flour is very sharp and granular, of high creamy color, which means great strength. Requires plenty of water, and the dough must not be made too stiff, but softer than what you have been accustomed to when using other flours. REMEMBER, THAT INCREASED STRENGTH IN FLOUR MEANS MONEY TO YOU, yielding a greater quantity of bread, thus far more than repaying you for any little extra time. KEEP THE DOUGH SOFT, GIVING IT PLenty OF GROWING ROOM. EACH BAG GUARANTEED. Sown with our special twine—Red, White and Blue.

G. M. LEISHMAN, AGENT FOR B.C.

THE BELLEVILLE MEETING.

Enthusiastic Conservative Demonstration on the Bay of Quinte—Address to the Premier and Government.

BELLEVILLE, Sept. 22.—(Special.)—The first of the public gatherings which Sir John Thompson is to address during his tour in this province was held here yesterday. The weather was fine. The city was gaily decorated and the streets thronged with a great crowd which included Senators, Members of Parliament and leading politicians of the district. Sir John Thompson, Sir Adolphe Caron, Sir C. H. Tupper, Hon. Messrs. Haggart, Angers and Daly, with Messrs. Wallace, Wood and Curran, were present. Addresses were presented to the Premier from the City Council, the Conservatives of the Bay of Quinte district and the Young Men's Conservative Association of Belleville. Nat. B. Falkner, president of the West Hastings Conservative Association presided, and about 10,000 people were present.

PAPAL ENCYCLICAL.

The Latest Deliverance by His Holiness on Educational Matters.

NEW YORK, Sept. 22.—The Rome correspondent of the Catholic News sends a synopsis of the recent encyclical from the pope to the bishops of America, a copy of which was delivered by Rev. Dr. Roeker to Mgr. Satolli at Pittsburgh on Thursday.

His Holiness urges concord and union among Catholics and instructs the bishops to promote the holding of congresses. He calls their attention to the importance of combating for the truth of books and journalism and urges that the clergy should not occupy themselves too much with civil and political matters.

The Holy Father dwells on the perils of mixed marriages, and continuing speaks at length on the school question and the disciplining of teachers. He says:

"Relative to elementary schools, venerable brethren, you must insist on and ever require that parish priests and all those having the care of souls devote all their care to the instruction of their pupils in Christian doctrine, that they confide to no others that grave and noble task, but that they set their hearts on reserving to themselves the entire weight thereof, well assured that not only the salvation of families, but likewise that of the nation, depends in a great measure on the pious and salutary instruction of early youth, and never deem to have attained to that degree of industry and of good management such as to warrant you to rest from further progress in schools."

From the same source comes a graceful eulogy of Cardinal Gibbons, apropos of his silver jubilee next month. The compliment is from the Monitor de Rome of September 8, and accredits him with "possessing all the charms of conquering souls."

ASIATIC CHOLERA.

The Latest in regard to its Appearance in Hamburg and England.

HAMBURG, Sept. 22.—During the twenty-four hours ending this morning nine fresh cases of cholera and two deaths from the disease were reported to the health authorities here. Eight of the cases previously reported as cholera are, on investigation, shown to have been attacks of a choleraic nature, but not of the Asiatic scourge as previously reported. One fresh case of cholera is reported in Altona, a suburb of the city.

LONDON, Sept. 22.—The recent death of a woman at Gorton, county of Lancaster, from a suspicious disease was to-day pronounced by the authorities to have resulted from Asiatic cholera.

WELL SATISFIED.

Franz Josef Has Complete Confidence in the Austrian Army.

VIENNA, Sept. 22.—Emperor Francis Joseph has issued an order which declares that he is entirely satisfied with the way the army manoeuvres near Guens, Hungary, which were concluded yesterday, were carried out. He praises the efficiency of the regular troops, and expresses his gratification at the good discipline shown by the soldiers and their manifest appreciation of the objects of the manoeuvres. The Emperor concludes by declaring that he has complete confidence in the army. Emperor William reached Mohacs last night, to which place the Imperial party has gone on a shooting expedition. After a short stop made at Mohacs, the royal sportsmen will proceed to Bogfok, which they will make their headquarters during their shooting excursion.

CANADIAN NEWS.

His Excellency's Reception in Montreal—Several Serious Fires.

A Merchant Commits Suicide—Fires—Going For the Ritu- alists.

(Special to the COLONIST.)

The Sillery Fire.

QUEBEC, Sept. 22.—The fire at Sillery, five miles up the St. Lawrence river, destroyed two grocery stores and twelve dwelling houses. Loss, \$25,000; insurance small.

Against Ritualistic Practices.

TORONTO, Sept. 22.—A sensation has been created in Anglican church circles here by the discovery that some persons or persons had entered St. Thomas and St. Luke's churches and destroyed the candles and turned the crosses upside down. The ministers of the desecrated churches are inclined to ritualistic practices.

Fire at Southampton.

SOUTHAMPTON, Sept. 22.—Fire completely destroyed the Commercial block yesterday.

A Town in Danger.

GLENCOE, Sept. 22.—A fire broke out here this morning which, for a time, threatened to destroy the business portion of the town. It is now under control, however, after having destroyed the town hall and lock-up and a number of stables and barns.

Charged With Seduction.

TORONTO, Sept. 22.—James Wells, 42, was arrested to-day charged with seducing Jessie Hammond, a 17 year old girl.

Gone Into Liquidation.

TORONTO, Sept. 22.—The firm of C. M. Taylor & Co., wholesale stationers, have gone into liquidation.

Board of Trade Banquet.

MONTREAL, Sept. 22.—The Montreal Board of Trade banquet here on the 27th promises to be a big affair. Applications for tickets have been received from representatives of Boards of Trade in the United States, while representatives will be present from Ontario and Manitoba.

His Excellency in Montreal.

MONTREAL, Sept. 22.—His Excellency the Governor-General and Lady Aberdeen are expected to arrive here on Tuesday evening next. The Montreal troop of cavalry will form the escort, the Windsor and Victoria Rifles will form the guard of honor at the civic reception on Wednesday morning, and the Royal Scots the guard of honor at the Board of Trade opening in the afternoon, and the banquet at the Windsor in the evening.

The Dog Fish Sausage.

HALIFAX, Sept. 22.—Cape Breton fishermen, as well as their brethren in Nova Scotia, find the prosecution of the fisheries difficult this fall owing to the immense schools of dog fish which frighten other fish, destroy nets and trawls and ruin the fishing. Forty years ago dog fish were plentiful and fishermen with a suitable kind of hook, not available to-day, captured immense quantities of these fish. The oil taken from them was worth 40 cents a gallon, mainly used for illuminating purposes. To-day it is not worth more than 20 cents a gallon, therefore the fish are not sought after.

Suicide of a Montreal Merchant.

MONTREAL, Sept. 22.—Fred Campbell, of Boyd, Ryrie & Campbell, wholesale stationers and paper dealers, killed himself last evening. A few days ago the books of the firm were seized by a special officer of the Canadian customs. The charge was that the firm had been smuggling steel pens into the United States from Bedford, Quebec, near the border. Several thousand dollars' worth were said to have been supplied to New York and Boston dealers. The U. S. Government found that they had been bought from this firm. Mr. Campbell had been despondent over the difficulties his firm was in with the customs. Last evening he went to his home in company with John Robertson. He proceeded upstairs to his brother's room. In a few minutes a report was heard, and on investigation Mr. Campbell was found dead in a closet. Beside him lay a breech-loading shotgun, the charge from which had passed through Mr. Campbell's heart.

ASIATIC CHOLERA.

The Latest in regard to its Appearance in Hamburg and England.

HAMBURG, Sept. 22.—During the twenty-four hours ending this morning nine fresh cases of cholera and two deaths from the disease were reported to the health authorities here. Eight of the cases previously reported as cholera are, on investigation, shown to have been attacks of a choleraic nature, but not of the Asiatic scourge as previously reported. One fresh case of cholera is reported in Altona, a suburb of the city.

LONDON, Sept. 22.—The recent death of a woman at Gorton, county of Lancaster, from a suspicious disease was to-day pronounced by the authorities to have resulted from Asiatic cholera.

The Emperor concludes by declaring that he has complete confidence in the army. Emperor William reached Mohacs last night, to which place the Imperial party has gone on a shooting expedition. After a short stop made at Mohacs, the royal sportsmen will proceed to Bogfok, which they will make their headquarters during their shooting excursion.

ADJOURNED.

The Imperial Parliament Adjourned till November 2.

LONDON, Sept. 22.—Parliament adjourned to-day until November 2.

ARGENTINE REVOLUTION.

Government Troops Defeated—The National Guard to be Mobilized.

BUENOS AYRES, Sept. 22.—The national troops in Corrientes have joined the revolutionary movement. The crews of the gunboats Republica and Bermejo have also declared sympathy with the Tucuman rebels. The Argentine government has ordered the National Guard to be mobilized throughout the country, and is determined to put down the rebellion if possible. Everything is quiet in the capital. The authorities continue to arrest all persons who are suspected of giving aid to the revolutionists. The government has been defeated in a battle in Tucuman; President Pellegrini has gone there with 1,500 men.

BUENOS AYRES, Sept. 22.—The Tucuman insurgents are invading the adjacent province of Santiago del Estero and are attacking the government troops wherever opportunity offers. The Premier has ordered the governors of Santiago del Estero and Tucuman to fight for every inch of ground and to hold out at any cost until the arrival of Gen. Pellegrini. The telegraph lines and railways have been partially destroyed between Sante Fe and Tucuman. The national guard is mobilizing throughout the country and marching troops may be seen on all the highways.

STRIKING MINERS.

Serious Fighting at the Mouths of Pits in Staffordshire—A Car Fired.

Order Finally Restored by the Police Without Disastrous Results.

LONDON, Sept. 22.—A dispatch from Heanesford, Staffordshire, where the striking miners became riotous last night, says that a mob of men and women attacked a train laden with slack which arrived during the evening, with stones and other missiles. The engine-driver and firemen of the train seemed to be the especial mark for the volleys of the crowd. The mine agent after considerable trouble succeeded in persuading the rioters to disperse. In a short time however, the strikers again gathered and once more began their rioting demonstrations. They released the brakes of several cars which were standing on the track near the pit and started the cars in motion. Fortunately they ran upon a siding and no damage resulted. Later the mob set fire to a car containing sixteen tons of slack, and before anything could be done to extinguish the flames the car and its contents were consumed. The police arrived on the scene at midnight, and this morning a hundred officers are on guard at the mouths of the pits. The damage done by the rioters is not so great as was at first supposed.

BRAZIL'S REVOLUTION.

The Rebel Vessels Off Rio Have Their Decks Cleared for Action.

Latest News Not So Favorable to the Opponents of the Government.

LONDON, Sept. 22.—A private telegram sent from Rio this morning, which reached London at noon, says the government troops still hold possession of the city. The vessels of the rebel fleet in the harbor cleared their decks for action and the drum beat to quarters early this morning; but the bombardment had not been renewed up to the time the dispatch was sent. The telegram adds that an enormous number of messages are passing from Brazil to Europe. All outward dispatches are closely scanned in order to prevent the use of any code.

NEW YORK, Sept. 21.—The Herald's Montevideo special says news received here yesterday is not as favorable to the cause of the revolutionists as heretofore. The rebel squadron, of which the Republica is the flagship, which sailed for the south intending to bombard Santos, Porto Alegre and Rio Grande do Sul, has been defeated. When they arrived off Santos the guns of the Republica and Pallas were trained on the city. The land forces were awaiting the attack and the shore artillery replied with vigor. The fight was kept up for two hours, when the rebel fleet hoisted anchor and sailed southward. Desertions from the ranks of the revolutionists are daily reported. The federal troops in Rio Grande do Sul have abandoned the siege of the city of San Eugenio, which they found was too strongly defended to attack with any hope of success. There was considerable skirmishing but no decisive results. Two thousand federals, under command of General Penna, were encamped near Bantista, intending to attack San Eugenio, which was defended by 600 Castilhistas, commanded by General Tigre.

Arrest of Anarchists.

BARCELONA, Sept. 22.—The police here raided the Anarchist club to-day, and seized two dozen potards and several large packages of tracts and placards. All the members found in the building were arrested.

The White House Display—Fall, 1893.

On Tuesday, Sept. 19th, the Millinery purchased by our Mrs. Kendall, in New York, Toronto and Montreal, will be ready for inspection. Our stock for this season being larger, more varied and better selected than ever it has been, will be well worth seeing.

HENRY YOUNG & CO.

CAPITAL NOTES.

Governor Boyd, of New Brunswick, Sworn In—Trade Returns for August.

P. O. Savings Bank Deposits—Sealing Arrangements With Russia Officially Gazetted.

(From Our Own Correspondent.)

OTTAWA, Sept. 22.—Senator John Boyd, of St. John, N.B., was to-day sworn in as Lieut.-Governor of New Brunswick by Mr. McGee, clerk of the Privy Council. Mr. McGee telegraphed last evening to the Senator, who was in Montreal, that he could either be sworn in at Ottawa or Quebec, and Mr. Boyd decided to return to Ottawa, where the ceremony was consummated to-day. The new Lieut.-Governor left for home this evening to assume his new position.

The trade returns for the past month were issued to-day. The exports are valued at \$13,572,817, an increase of a quarter of a million, and the imports \$11,375,862, or a decrease of two millions and a quarter. As July showed an increase of a million and a quarter for the corresponding month last year, the net decrease so far this year is a million dollars. The duty collected to the end of August amounts to \$3,745,834, an increase of \$55,991.

To-morrow's Canada Gazette contains the official announcement of the appointment of the Governor-General's aides de camp.

Copies of the documents respecting the recent sealing arrangements with Russia and the revised and amended quarantine regulations have been forwarded to the different stations in Canada.

The deposits in the Post Office Savings Bank during August amounted to \$721,311, and the withdrawals to \$525,109.

The infant daughter of Hon. J. A. Ouimet died to-day.

Sir C. H. Tupper has consented to open the Peterborough Fair next Tuesday.

The Department of Marine and Fisheries has determined to put a stop to illegal fishing, and to day secured the conviction of Jeremiah Keely, of the township of Lowe, for killing fish with dynamite in Ottawa county.

Sir John Thompson and his colleagues returned from Belleville to-night.

An Order-in-Council appointing Judge Landry to the vacant Supreme Court judgeship of New Brunswick has been signed by His Excellency.

Governor Boyd, on his way to Ottawa last night, narrowly escaped a severe accident. While the train was waiting at Calumet, and while the passengers were at supper Mr. Boyd alighted from the train for a stroll on the station platform. The night was very dark, and the hon. gentleman not noticing the freight lying on the platform, fell over the obstructions. He was severely shaken, his right hand sprained, his arm bruised and leg cut. He was able, however, to resume his journey. It was, however, with difficulty that he subscribed himself as Lieut.-Governor of New Brunswick, to-day, after having taken the oath, but he is now much improved.

AMERICAN NEWS.

U. S. Pacific Squadron.

WASHINGTON, Sept. 22.—Secretary Carlisle has decided to send the revenue cutters Grant, now at New York, and the Perry, now at Erie, Pa., to the Pacific coast to strengthen the U. S. fleet in the Pacific. The vessels will leave within the next month for their destination. They will go round by way of Cape Horn and the voyage will occupy three months.

More Arrests of Defaulters.

SEATTLE, Sept. 22.—Considerable excitement was occasioned to-day by the arrest of Fred. E. Sander and L. H. Griffith. They are accused of diverting the funds of the city to their own use by borrowing city money from City Treasurer Krug, which is contrary to law. Krug is a defaulter to the extent of about \$160,000, and is at present under arrest at St. Paul, Minn., pending his extradition. Messrs. Sander and Griffith are the chief promoters and builders of several lines of street railway in Seattle, and stand well in the community.

Defaulter Burwell.

ST. PAUL, Minn., Sept. 22.—Business and social circles were shocked last evening on learning that Jules H. Burwell, vice-president, treasurer and general manager of Mast, Buford & Burwell Carriage Co., was charged with misappropriation of \$70,000 of funds of the firm. The firm was forced into an assignment on Monday by the financial methods of Mr. Burwell, it is alleged. Victor Robinson was selected as assignee. The complaint charges that Burwell has been a member of the corporation for eight years, at a salary of \$5,000 a year, and as treasurer at times had access to the funds of the company. It states that Burwell, instead of taking the \$5,000 which was his rightful due, annually appropriated to his own use amounts far in excess of that sum. Of the amounts wrongfully taken, \$40,000 is charged to have been taken in money and the value of the remainder in carriages and merchandise. The firm of Mast, Buford & Burwell therefore asks judgment against Jules H. Burwell for \$70,000.

Rearrested.

PORT ANGELES, Sept. 22.—Judge Carusi was rearrested yesterday on a warrant issued upon a complaint sworn to by Thomas T. Aldwell, charging murder, before Justice Alfred Ware, justice of the peace of Sequim precinct, twenty miles from this place. Justice Ware came to this city to issue the warrant. Judge Carusi was at once released upon \$1,000 bonds, and the time for the preliminary examination set for Tuesday at the office of the justice of the peace at Sequim. Thomas T. Aldwell, who swore to the complaint, is a brother-in-law of the late Dr. I. R. Herriek, the killing of whom by Judge Carusi was said to be fully justifiable by Judge Brewster and practically so by the coroner's jury.

TEA KETTLES, with wrought iron stands and fitted with spirit lamps, a novel idea, at Weiler Bros.

NEWS OF THE PROVINCE.

Good Progress Reported From the Mines — Road-Making Actively Going On.

Vancouver Building Improvements—The Chemical Engine to the Rescue.

[Special to the COLONIST.]

VANCOUVER.

VANCOUVER, Sept. 22. — A party for Chicago, twenty-four in all, got up by G. Z. Goldberg and J. L. Edwards, left yesterday.

The rancherie near the railroad track has been the scene of the wildest orgies lately. Indians in Vancouver can get liquor whenever they want it, as the severest punishment does not seem to prevent the traffic.

In the Supreme court on Tuesday orders were made for the removal of the inhabitants of fifty-one shacks.

C. G. Johnson & Co. have dissolved partnership. Mr. Johnson has taken over the pilotage agency and Taylor's Safe agency, and Mr. A. L. Russell the shipping and customs brokerage business.

A piece of flying timber broke the leg of the mate of the barkentine C. F. Crocker at Hastings mill yesterday.

The Constitutional League will hold a public meeting at the market hall on Saturday.

R. C. Smith, of Portland, the great horseman, is in Vancouver.

Capitano water is promised for to-night. A tramp stopped a boy carrying his supper to his father in the cement works and proceeded to go through him. The boy screamed, when one of those much abused "John Chinamen" rushed up to the tramp and gave him a severe drubbing, not letting up until the robber cried for mercy.

Rabbi Baer yesterday formally received the infant son of Mr. Z. Franks under the Abrahamic covenant.

The Hastings mill has been shut down owing to the break in the water main.

Dr. Powell's new three-story block, next to the Court house, will be known as the "Inns of Court." The building will be specially planned for legal offices.

John L. Carter, of the Carter House, was assaulted by J. B. McKay yesterday with steel knuckles. McKay owed for his board and was turned out.

A fire broke out in McKay's paint shop, Hastings street, and as there was no water in quantities, the building would have been consumed if it had not been for the chemical engine.

The Van Winkle mine has had another successful clean. The four clean-ups are as follows:

First run \$407, 26 days washing.
Second run \$448, 13 days washing.
Third run \$893, 18 days washing.
Fourth run \$1,530, 10 days full head and 10 days half head.

The Vancouver Y. M. I. banquetted the returned delegates to the Grand Council last night, at the Spa restaurant. They reported that the Grand Council had not seen fit to constitute the Northwest Pacific division at present.

NELSON.

(From the Miner.)

The Nakusp and Slocan road will be further advanced this winter than most people think. Not only are the contractors under heavy bonds to have the road completed to the head of the lake this winter, but the road must be constructed to the Three Forks by May 1st. To accomplish this the work of grading must be done before winter. The work is being pushed along with the greatest dispatch.

"Nearly all the Couer d'Alene mines will be working on their full capacity within a few weeks, and we will have a pay roll of over \$300,000 a month, over two-thirds of which will be expended in Spokane." This statement was made by a mine owner to a Spokane newspaperman.

(From the Tribune.)

It is reported that the Government agent has ordered work commenced on a wharf at New Denver.

Another 40 tons of ore have been shipped from No. 1 mine at Ainsworth, to the Tacoma smelter.

Forest fires have caused considerable smoke to settle on the lake in the vicinity of Kaslo.

Prof. G. Tilden, of the School of Mines, Golden, Colorado, is making a tour of the Slocan mines with F. M. Chadbourn, of Nelson.

George Hughes has struck ore in the Mountain Chief mine, two miles from New Denver, which assays over 6,000 ounces of silver to the ton.

The Pilot Bay smelter people have thrown up their hands on the Brennan and Russell claims in the Kaslo district, on account of the low price and uncertainty of silver.

Indians from the valley of the Kootenay river seem to act as if settlers had no rights worth respecting.

A. B. Irwin, for several years manager of the Spokane Cab Company, the district messenger service, and of the Hotel Spokane, is secretary of the Washington Mining Company at Kaslo.

Owing to the refusal of the Great Northern railway to put in a spur at Bonner's Ferry, all ore from the Slocan country will be shipped by way of Nelson.

"Alt" Woods, a printer and placer miner, leaves this week for Toronto. He will take in the World's Fair en route, and probably engage in a newspaper venture on his return to Toronto.

N. Fitzsimmons, government agent, returned on Wednesday from Nakusp, New Denver and Kaslo. He reports the New Denver wagon road graders a mile to the west of Three Forks, and right-of-way and bridge men still farther advanced. Men are repairing the wagon road east of Watson, the expense to be shared by the government and the teamsters.

KASLO-SLOCAN.

(From the Examiner.)

The men on the Lucky Jim mine have struck the lead in the lower tunnel.

P. J. Savage bought of Graham and Flaherty a one-sixth interest in the Cascade claim on Grizzly creek for the sum of \$450, this week.

Fifty-three men are working on the wagon road about three miles east of Three Forks.

Mr. McNaught, of Seattle, it is almost certain, will take up his option on the Grady group of mines and put a large number of men to work developing.

The Nakusp road is being pushed through rapidly, and the track will be laid to the head of Slocan lake by January 1st. The terminus of the Nakusp road will be New Denver, while a spur will be built to Three Forks.

At Hughes' warehouse are about 170 tons gone from the different mines: 76 tons of Mountain Chief ore, 40 tons of Freddie Lee ore, 50 tons Noble Five ore, and smaller amounts from other mines. The Willing-

ton and Blue Bird have 40 tons at the wharf, consigned to San Francisco. This shipment is the first of a series which will aggregate about 1,800 tons from the mine. Speedy handling at this point will in all likelihood bring nearly all the ore this way.

The Juna claim in the Whitewater basin has been attracting attention owing to a reported rich gold find. The owners have exhibited rich specimens of gold quartz on several occasions in the past two weeks, asserting that they were taken from the Juna.

Placer mining on Hall creek this season has not been a success. Some likely spots in the canyon are receiving attention. Three claims are located there. Captain Duncan and party have built a flume at the mouth of the canyon and report fair pay, with better prospects when bed-rock is reached.

MARINE MOVEMENTS.

The "Mermaid" Arrives in Company — That Memorable Encounter With the Feeding Whale.

"Crown of England" to Pass Victoria By — The "Arctic Stream" on Berth at Montevideo.

Three sealers which arrived home yesterday were the Mermaid, Libbie and Sea Lion. The first named is in command of Captain Whiteley, and has a catch of 1,320 skins. She bears but few signs of the fearful blow she received from a whale while off the Japan coast a few months ago, as she has been staunchly repaired. Captain Whiteley says he thinks the whale was feeding when he struck it and the blow which the monster gave the schooner almost swamped her, as it certainly would have done had it not been for the extra amount of strength which the vessel possesses. The blow severely wounded the whale for it was afterwards seen in apparently great agony, though Captain Whiteley says he did not care to pay any attention to it after the first encounter, for the schooner was so badly disabled that it took him all his time to make Yokohama. One of the Mermaid's hunters, named O'Brien, who was second mate on the W. P. Hall last year, was placed on board the British man-of-war Porpoise, at sea on July 26, suffering from an abscess in the head, being upon the advice of the surgeon of the Porpoise received on the warship for medical attention. The schooner Libbie's cruise was not so full of incidents as was the Mermaid's. She secured a catch of 1,630 skins, 400 of which were obtained on the Russian coast. Her top line boat registered 330 pelts for the year, while her smallest only secured 160. The Sea Lion's catch for the season is 1,000 skins. The Dora Steward, which will probably be in port to-day, has 1,865 skins.

THE "CROWN OF ENGLAND."

The British steamship Crown of England, the first of the new Great Northern Oriental line, had not arrived up to midnight last night. She is now overdue, but will not put in at Victoria, having cleared direct from Yokohama for Seattle. Her charter expires as soon as she has discharged her cargo. Samuel Samuels & Co., the owners of the new line, will charter vessels as they are needed, pending the building of their own steamers at the Clyde shipyards. The new ships are being constructed upon the latest improved passenger model. Each of them will contain a hold for the special loading of a certain amount of lumber cargo.

TO LOAD FOR MELBOURNE.

Bark Elizabeth Graham, reported in the Straits by the tug Lorne Thursday, sailed into Royal Roads yesterday morning, being 33 days from Honolulu. She will tow up to Moodyville in a day or so, to load lumber for Melbourne.

FROM SAN FRANCISCO.

The steamer Queen, which left San Francisco for this city yesterday, has aboard the following Victoria passengers: E. E. Archer, J. H. Farraday, E. S. Smith, N. A. La Prince, E. C. Brown and J. Ding.

MARINE NOTES.

The Miowera sailed for Victoria from Brisbane on the 19th inst.

The British ship Arctic Stream is on berth at Montevideo for British Columbia.

The bark Ladstock proceeded to New Westminster in tow of the Lorne yesterday morning.

BUSINESS CONCLUDED.

The Presbytery of Victoria finishes its Present Work—An interesting Session.

Finding of the Court in the Second Charge Against Rev. P. McF. Macleod.

The Presbytery of Victoria met again yesterday morning, at 10 o'clock, and proceeded at once to business, the session having been opened with Bible reading and prayer. The same members were present as on Thursday.

Rev. D. A. Macrae, rising to a question of privilege, referred to a statement he had made on Thursday that Rev. Mr. Macleod was endeavoring to create the impression that he was being persecuted in Victoria. He (Mr. Macrae) had then stated that Mr. Macleod had written a letter in which he made the accusation, and Mr. Macleod denied having done so. He had now in his hands one of the letters he had referred to, and would read it to the court, in order to show that he had stated exactly what was correct.

Rev. Mr. Macleod—To whom is that letter addressed?

Rev. D. A. Macrae—To Mr. Alexander Shaw.

Rev. Mr. Macleod did not think this letter should be read, as it was a private communication written in confidence to a man he thought was his friend.

Rev. D. A. Macrae—When the question came up I was expressing regret that the impression should have gone abroad that you thought you were being persecuted, and you claimed you had never given that impression to the public, and were not responsible for it.

Rev. Mr. Macleod—Have I not a right to express my opinion in a private letter? That does not reflect on the court!

Rev. D. A. Macrae—You know what the fact is, Mr. Macleod. You wrote to every member of the Presbytery resident outside the city, and claimed that the Victoria members were prejudiced against you.

Rev. Mr. Macleod protested against this use being made of his private letters. He said: "It shows that there is not a man that one can trust in the whole Presbytery to treat him like an honorable man."

Rev. Mr. Winchester—Will the clerk please take those words down.

Rev. D. A. Macrae—Will you repeat those words.

Rev. Mr. Macleod—I retract what I said, but I must declare it is a most dishonourable thing for any member of this court to produce private letters without my permission.

Rev. Dr. Robertson—This is a letter that must be considered as privileged. It is addressed to a member of this court, and can be properly produced.

Rev. Mr. Macleod—I wrote that letter to Mr. Shaw, thinking he was a friend of mine, and I cannot be called into question for any private opinion I may express to a friend. If I can it is a new lesson for me. The statements in that letter are such as I would never have made in public—they are private and addressed to a friend.

Clerk MacRae—Mr. Macleod at the outset claimed the court was not competent, but I would like to know who are the members most likely to be prejudiced, those who are here in the city or those to whom Mr. Macleod wrote saying that it could be proven that the local members were prejudiced against him. He continued, "And will you say Mr. Macleod that you did not declare after you read our remonstrance from the pulpit on Sunday at the old Methodist church that 'they cannot drive me out of Victoria'?"

Rev. Mr. Macleod claimed he had qualified this statement very much. He then apologized for his previous remark, which he said had been made in a burst of burning indignation at so great a liberty being taken as to read at the Presbytery a letter which was private.

Rev. Mr. Winchester—Before you make such a baseless, groundless accusation, such a foul, unwarrantable slander, I hurl back at you your words about burning indignation, for who has cause of complaint greater than ours that you should read from a public pulpit a private remonstrance which we sent to you to endeavor to prevent what would be clearly a violation of church law? Could anything be more outrageous than that you should make such a use of a brotherly, kindly but dignified remonstrance we made to seek to prevent your doing what must injure our cause and our church? And more than that, I have a letter in my hand which you wrote to me from which I quote your words: "This is, of course, a persecution to prevent the formation of the new congregation." Dare you deny that?

Rev. Mr. Macleod—Have I no rights? If Mr. Winchester has any charges to make against me, why should he not formulate them and give me an opportunity of replying to them? It seems that under this question of privilege an attempt is being made to make a further attack on me.

Rev. Mr. Winchester claimed he was at perfect liberty to read this letter to substantiate the statement made by Rev. D. A. Macrae and denied by Rev. Mr. Macleod.

Rev. D. A. Macrae—I want it understood before this Presbytery that any statement I may make and can't prove, I will retract like a man.

The charge against Mr. Macleod that he had issued dismissals from St. Andrew's church after his resignation was in the hands of the Presbytery, and he had ceased to conduct the public services, was then taken up.

Rev. D. A. Macrae stated the case. A number of letters of dismissal were granted to members of St. Andrew's church during the late trouble. Before he had left there he (Mr. Macleod) issued a circular asking those who sympathized with him to come out. Mr. Macleod then preached a farewell sermon and left the church, but for one month more he preached at the theatre and supplied the pulpit of St. Andrew's by another clergyman, and demanded salary for that month and was paid. While preaching at the theatre Mr. Macleod issued fifty-nine dismissals, of which the names of forty-six were on the petition for the new church. This was not Presbyterianism, for the session was given the supervision of these matters and the Presbytery should not tolerate such an assumption of authority by any minister. He would make a motion later on.

Rev. Mr. Macleod—Does the court draw up the resolution before the accused parties are heard? It that is the way you are going to go on it makes no difference what I say.

Rev. D. A. Macrae—This is only a resolution I have drawn up on my own account.

Rev. Dr. Campbell—The court has not moved any resolution.

Rev. Mr. Winchester—When we give you no opportunity of speaking in defence it is time to complain.

After some discussion as to procedure it was decided to hear the motion, which was then presented.

Rev. Mr. Macleod wished leave to speak and was allowed. He claimed that legally

he was responsible to the Presbytery for the pastorate of St. Andrew's until September 6, and between August and that time had held two meetings of the session. He acknowledged issuing the certificates which he had then taken down to the session clerk, Mr. Bethune, for signature, but Mr. Bethune refused to sign them. He had nothing to hide in the matter but on the contrary wished to have everything in connection with his conduct made known, so that if any certificates were wrongly issued they could be returned. He could not have brought the matter before the session himself as he had not issued them until the 31st of August. Legally and technically he considered he was pastor of the church when the certificates were issued. He objected to the circular which Mr. Macrae read being referred to, as it was a private matter, and declared he had made no attempt to divide the congregation. The strife was not between himself and the congregation but between certain elements in the congregation who were for and against him. The result of the trouble was that a resolution was passed asking him to resign at once, this step being declared necessary in order to preserve the existence of the church. He recalled the fact that after his return from the East he had offered to remain as pastor of St. Andrew's for whatever salary the revenue would produce after the interest on the debt was paid, but he had then been told that nothing but his immediate resignation would do. The St. Andrew's church people had no doubt expected that he would get out of the city, but he had not gone, as there were a large number of people who wanted to enjoy, and were now enjoying, his ministry. If the certificates, however, were wrongfully granted, they could be recalled, and fresh application would have to be made. But as to his legal, technical position, there was no doubt, no matter what might be said of the unwise course in granting the dismissals.

Rev. Dr. Campbell—We all admit it is the duty of the session to grant certificates to members leaving the congregation. It is provided that, between meetings of the session, the Moderator may grant certificates to members in good standing, but I don't think anyone can say that this was intended to authorize the issuance, in this way, of certificates by the wholesale. If this procedure were tolerated it would be possible to deplete and ruin any congregation. A principle is here at stake, and if the Presbytery does not take cognizance of it a blow will be struck at the very foundation of our church organization.

Clerk MacRae advised the session of St. Andrew's church to refer the matter of the certificates to the Presbytery for a decision.

Rev. Dr. Robertson suggested that while the Presbytery should condemn the conduct of Mr. Macleod, steps should at the same time be taken to ratify the certificates so that they might be valid. He thought that after Mr. Macleod had sent in his resignation he should have done nothing but the most formal matters, for he was the custodian of the interests of the congregation, and by committing such an error of judgment was likely to create a very bad impression. The whole matter was painful in the extreme, but at the same time the interests of the congregations and of Presbyterianism must be considered.

Clerk MacRae—What can we do with these certificates? I do not say that it is so, but it has been mooted that some of the parties who received these certificates never asked for them.

Rev. D. A. Macrae—What we want to do is to strongly disapprove the conduct of Mr. Macleod, but we don't want to affect the validity of those certificates which have been issued.

The resolution was then amended as follows and was carried unanimously: Moved by Rev. D. A. Macrae, seconded by Mr. Shaw, "That inasmuch as Mr. Macleod ceased to conduct the public services in connection with St. Andrew's church, Victoria, on and after the last Sabbath of July last, although his resignation of the pastorate was not dealt with or accepted by Presbytery till the 6th of September current, and was conducting public services in other buildings in this city during August and the first Sabbath in September; that inasmuch as St. Andrew's congregation was struggling with a heavy debt, contracted in building a church during the pastorate of Mr. Macleod, and needed every encouragement to enable it to meet pressing financial obligations; that inasmuch as Mr. Macleod issued certificates of dispensation to the number of 59, or about one-sixth of the members in full communion with St. Andrew's congregation between the 1st day of August and the 4th day of September without consulting the session or receiving its sanction afterwards; that inasmuch as the disjunction of so large a number of communicants was calculated to diminish the ability of the congregation to meet its indebtedness and otherwise impair its usefulness; that inasmuch as about forty-six of the persons so disjoined have their names appended to a petition now lying on the table of the Presbytery asking the Presbytery to organize the petitioners into a congregation, with Mr. Macleod as pastor—the Presbytery is constrained to record its decided disapproval of Mr. Macleod's conduct in the premises in issuing these certificates without consulting the session and securing its approval at the time or at some subsequent date. The Presbytery would recommend the session, however, to confirm these certificates, unless it should appear that any of them were issued in error."

Rev. Mr. Macleod announced that he would appeal against this decision to the Synod.

A committee, consisting of Rev. Dr. Campbell, Rev. D. A. Macrae, Mr. J. T. Bethune and Clerk MacRae was appointed to reply to the appeal.

The meeting was then brought to a close with prayer.

The following is the full text of the motion passed on Thursday. It is published by request of members of the Presbytery:

Moved by Rev. D. A. Macrae, seconded by Rev. Dr. Campbell, "Whereas a petition was presented to the Presbytery of Victoria at its meeting at Nanaimo on the 6th ultimo, signed by W. A. Lorimer and others, asking for the organization of a new congregation in Victoria; whereas the Presbytery after receiving the petition, appointed a committee to meet with the petitioners on the 20th day of September, prox., and obtain all the necessary information and also agreed to cite and did cite the congregations of St. Andrew's, First church and St. Paul's church, Victoria, to appear for their interests at such meeting, as the laws of the church provide; whereas the Presbytery in order that the case might be issued as speedily as possible agreed to hold an adjourned meeting in Victoria on the first Wednesday of October to receive the report of the committee, hear all parties, and dispose of the petition; whereas it is evidently contrary to the law of the church as laid down in section 6, page 10, of the Rules and Forms of Procedure adopted by the General Assembly of 1889 to conduct any regular religious services in such cases till the Presbytery has decided to grant organization and has provided for such services; whereas Mr. P. McF. Macleod did hold services on the 10th and 17th of September, forenoon and evening, in the old Methodist church, corner of Broad street

E. M. JOHNSON

37 Government Street, Corner of Broughton.

ESTABLISHED 1879.

Real Estate Agent, Conveyancer and Notary Public

Loans Effected, Rents and Income Collected, Deeds Prepared, Etc., Etc.

FOR SALE---A 1388-ACRE FARM

About 1000 Acres of which is Ploughable Prairie of First-class Quality.

120 Head (more or less) Cows, Steers, 2-year olds, etc., etc., (about 60 or more to calve this spring), 1 pedigree Hereford Bull (rising 3 years).

7 Mares (in foal to a good stallion), 1 Horse, Pigs, Chickens, etc.

Ploughs, Harrows, Reaper, Fanning Mill, Wagon, Sleds and usual Farm Implements.

Double Harness, Chain Harness, Bull Chains, Saddles (ladies' and gent's), Bridles, etc.

Blacksmiths' Bellows, Anvil and Tools and Carpenters' Tools.

9-Room House (shingle roofed; Stable for 10 horses, with hay loft above; Stone Roothouse, Store Buildings, Dairy, Cow Sheds, etc., etc.

4 Miles (about) Standing Fences, in good order; Corralls, 10 miles barbed wire and staples; about 2,500 Posts on the ground, ready for use, etc., etc.

Small Lot Household Furniture, Stove and Pipes, Crockery, etc., etc.

This Property is within easy distance of many of the most important Gold, Silver and Coal Mines in West Kootenay. The population of this district will increase this year by at least 10,000; the area of farm land is very limited, and from this it may be fairly asserted that beef and all classes of farm produce will find a ready and lucrative market. The soil is the best bottom land, and the locality is one of the few places in the Province where so large a piece of good farm land can be found in one block. A river runs through the property, and rainbow trout are plentiful and afford capital sport. Deer abound in considerable numbers. Bear, Wolf, Coyote and other large game are to be found in the hills. There are two creeks recorded and belonging to the estate, one flows all the year round. Limestone and brick clay are to be had in the valley.

The Cattle are well bred; a much larger herd could be farmed with the place. The bunch grass on the hills in the vicinity covers many thousands of acres, and is available to the few land owners in the valleys. All buildings and fences about the farm are in good order, and farming operations can be gone on with at once; about 180 acres of ploughing have been, so far, provided for this year's work.

The Climate is not severe, the land being about 1,100 feet above sea level; the station was for many years the winter quarters of the H. B. Co.'s pack trains. There is a weekly express in and out. Goods and supplies at wholesale can be procured on order and delivered in 48 hours.

The Title is by grant from the Crown, and is free of all encumbrances. Immediate possession can be given.

Important Railway works are now in progress within moderate distance, and two railway lines have been run to pass close to or through the estate, which can be reached in the spring in three days' journey from Victoria.

The South West Kootenay District, British Columbia, judging from the actual ore products of the mines this winter, is destined in the next year or two to become one of the richest and most important mineral centres in the world. Statistics show, that although the district is in its primary stage, the mines have developed ore veins rich enough to warrant the investment of over a million dollars. When these mines come to be worked systematically, there will be an

Influx of Population, which will require beef and farm produce in large quantities. The limited quantity of really good farm land in the district to supply these requirements makes this

A BONANZA!

To any person or corporation having the capital and knowledge necessary to develop and work this estate. A store, hotel and blacksmith shop could be run in connection with the farm.

THROW AWAY CRUTCHES

MARVELLOUS

Rheumatic Liniment and Mixture

Rapid and Effective Cure.

Victoria, B. C., Jan. 17, 1893.
To Dean & Cryderman, druggists.

GENTLEMEN,—With much pleasure I add my testimony to your valuable Marvellous Rheumatic Cure. For three months I suffered terrible pain. Could not move only by the aid of two sticks. I have only taken two bottles of the medicine and two of the liniment, and I can now go without sticks, and hope after the third bottle to go to work.

Yours very thankfully,
S. NORMAN,
No. 48 Oswego street, corner Michigan street.

If you have Rheumatism, Lame Back or any Severe Ache or Pain, The Marvellous Rheumatic Liniment will Cure it quickly.

Where Cuts are inserted they must be A.D. METAL—now mounted on Wood

THE CARIBOO CAMPAIGN.

Judging by the tone of the newspapers of the Opposition the Premier must have made an excellent impression on the electors of Cariboo. They are evidently disappointed and out of humor. Consequently they give vent to their chagrin in abusive paragraphs and foolish editorials. The News-Advertiser having nothing truthful or rational to present to its readers about Mr. Davie's visit to Cariboo, insults their intelligence by setting before them some silly chaff and a description of the Premier's addresses, evidently intended to be sarcastic and witty, but which the merest tyro can see is nothing better than a farago of falsehood and foolishness. The editor alludes to reports of the speeches made by Mr. Davie "which came to hand yesterday," but takes good care not to publish any of them. If these reports were fit for publication, and if what they contained was in any way calculated to injure Mr. Davie politically and to damage his Government, they would certainly have been published in full and given a prominent place in the paper. As they were suppressed and as the editor's distorted version of them was given instead, it is quite certain that they contained nothing that any sensible man would regard as injurious to either the Government or its leader. The suppressed reports would most probably, like Mr. Borland's alleged contradiction, which was published with such parade by both the Advertiser and the Times, show that the speeches contained undeniable truths that exposed the insincerity and the trickiness of the leading members of the Opposition.

THE RIGHT VIEW.

The Toronto Telegram puts the futility of discussing the Manitoba school question in its present phase in a strong light. It says:

It is a pity that their audiences should expect the Premier and Mr. Laurier to continue telling them that the other party has acted unpatriotically and irrationally in respect of the Manitoba school question.

The matter has gone beyond the purview of the politicians. What they can say or do will have no effect upon the Supreme court judges who are to pronounce upon the question of remedial legislation. Sir John Thompson's Government availed itself of a provision of the British North America Act when it referred the question to the highest court in the land, and if there be any objection to be made, it should lie against the constitution of the Dominion, an instrument which has proved wholly acceptable to nobody.

This is exactly how the matter stands. The minority in Manitoba believe that they have a remedy at law for the grievance of which they complain. They have, therefore, appealed to the law, and until the Supreme court decides whether they are right or not the matter is out of the arena of politics. This the Liberals know well, but as they believe that some capital can be made by stirring up the question and talking about it in an indefinite and non-committal way, they cannot let the matter rest.

LOOK AT HOME.

It is a pity that the Americans who so bitterly denounce the British House of Lords do not pause a moment to contemplate the position now occupied by their own Senate. That body has put itself in opposition to the will of the nation, and has deliberately placed obstructions in the way of legislation which the American people consider necessary. The Senators cannot make any mistake as to what are the wishes of the people with respect to the repeal of the Sherman Act. Seldom in any nation has the popular will been so strongly and so generally expressed as it is and has been for a long time in the United States with respect to the silver question. Yet the Senate has disregarded the popular voice. It has permitted the legislation demanded by the people to be delayed by devices of parliamentary obstruction, to which it would have been shameful to resort had the measure been one of no more than ordinary importance. Thinking and patriotic men in the United States are indignant at the contempt of the people's wishes displayed by the Senate, and express themselves strongly on the subject. The Philadelphia Inquirer, after denouncing the Senate as a nuisance, goes on to say:

The time has come to speak plain words. When a legislative body persists in playing with a great country and defying its plain mandates then should the people speak their minds freely. And the Inquirer, representing tens of thousands of citizens of Pennsylvania, but voices their sentiments when it arraigns the management of the Senate of the United States as a menace to business and financial stability.

The attitude of the House of Lords with respect to the British people is exactly the opposite of that which the Senate of the United States has taken and maintains towards the "sovereign people." Its principal objection to Mr. Gladstone's Home Rule bill is that it is not in accordance with the will of the nation. The Prime Minister, they hold, has taken advantage of having a small majority of the House of Commons at his back to force through that body a most important measure of which the people knew nothing until it was sprung upon Parliament and the nation. The people have not had the opportunity to pass an opinion upon it. If they had they would have rejected it by a very considerable majority. It is because the Lords are convinced that the majority in Parliament does not, on the Home Rule question, represent the majority of the nation that they feel justified in throwing out the Home Rule bill after it has been passed in the Commons by a majority of thirty-eight. Their desire is to give the nation an opportunity to pronounce upon the bill. The British House of Lords in this matter is on the side of the people; the United States Senate, with respect to the Sherman Repeal bill, is acting in defiance of the will of the people. The majority in that body suffer themselves to be defied by a minority which represents a much smaller minority of the people. If the Lords had acted in this way there would be some reason in denouncing them.

INDIGNANT DEMOCRATS.

The San Francisco Examiner, though a Democratic paper, is in revolt against the Democratic President. The course which the Administration is pursuing with respect to the Geary law is the cause of the Examiner's discontent. That paper believes that it is the duty of the President to do all in his power to enforce that law, and that when he takes upon himself to allow it to remain inoperative, he acts the part not of a constitutional ruler, but of a dictator or an irresponsible despot. It is, our San Francisco contemporary contends, the duty of every member of Congress, whether he approves of the Geary law or not, boldly to withstand the President in his attempt to override the law. After asserting that Mr. Cleveland's conduct is an "insolent violation of his oath of office and in contempt of the legislative and judicial arms of Government," it goes on to say that the Geary law "now represents the assailed principle of constitutional government. The members of the Pacific Coast will not be alone in their battle for the maintenance of the requirements of law."

There are people who look upon the enforcement of the Geary law and opposition to it in a very different light from that in which are viewed by the San Francisco Examiner. The whole Methodist body in the Great Republic, for instance, seem to consider that upon the way in which the United States Government deal with this matter of the Geary law depends its character among the nations for good faith and fair dealing. They have, consequently, sent petitions signed by hundreds of thousands to Congress, praying to have the law repealed. It is not to be expected that these good people, and millions of others like-minded, will be very severe on the President for seizing any pretext that presents itself to prevent the law being put in full operation.

ABOUT BANKERS.

It has been said that the present crisis in the United States has been brought on by a conspiracy of the bankers and other "gold-bugs" of Europe to drive silver out of the field as a money metal. Sir John Lubbock, in an article in the September number of the North American Review, shows the unreasonableness as well as the groundlessness of this accusation. He says:

It is often said that bankers have special interest in raising the value of the standard. But this is quite a mistake. Bankers are both debtors and creditors. The capital placed in their hands by depositors is lent out, and what their debtors owe them they, in turn, owe to their customers. So far as their own capital is concerned, they are in the same position as anyone else who has any savings. Who are the bankers? Take the Bank of England. The amount of bank stock held by the directors is infinitesimal. It is held mainly either by insurance offices and other institutions, who again hold it for their shareholders, or by trustees, clergymen, widows and others who are content with a low rate of interest for the sake of good security. The working classes—no, of course, individually, but collectively—are the great capitalists. They own far more and their interest is far larger than that of bankers. Those who can be called great capitalists own a mere infinitesimal fraction of the property of the country.

In the same article Sir John Lubbock says:

I quite concur with the bimetallicists in wishing silver to continue in use both as a coin and as a standard of value. It would be a misfortune if India or China were to adopt a gold standard. But when they speak as if silver had been excluded from its monetary privileges, they forget that the majority of mankind still use silver as the standard of value. We are monometallicists, not as wishing the whole world to adopt gold, but as wishing each country to have a uniform standard.

For my part, I deny that the plan proposed can reasonably be called bimetallicism. It is monometallicism, with an option to the debtor. I always wonder that bimetallicists have not proposed to make the legal tender in the last resort half gold and half silver. That would be real bimetallicism, but what they propose is that one party to a contract shall have the option of paying in either

gold or silver. This is surely not fair. Of course they would refuse, and rightly refuse, to give the creditor any such unfair advantage. But then how can they reasonably claim it for the debtor?

A HEARTY WELCOME.

The Vancouver World thus describes the reception given to the Premier in Chilliwack and the New Westminster district generally:

Mr. Davie received such a welcome as never before was accorded any Prime Minister, not even his predecessor in office who was there held in the loftiest esteem. He marched through the valley like a conqueror receiving assurances on all sides that his Government held the confidence of the electorate and himself the goodwill of his fellow men. Such demonstrations of affection and sympathy go far to make up to Ministers of the Crown for the anxieties which constantly assail them, and give the lie to the unsupported assertions of the Oppositionists that the tide of popular feeling is running against the dominant party. They and their wretched organs both here and in New Westminster have been told by the people of Chilliwack that they do not believe the idle stories of governmental incapacity nor will they heed wanton cries of blue ruin, rather have they declared on the most convenient occasion possible that they are prepared to give the Government a fair trial and to deal with it on its merits. This is all anybody could ask. His visit to Chilliwack and the cordial hospitality he received there cannot fail to be pleasing to Mr. Davie, who we hope will endeavor, if his public duties admit, to accept the invitation tendered him by other municipalities on the Mainland to attend their fall fairs, and in that way become acquainted with the people upon whom he cannot fail to leave a favorable impression.

Are You Nervous.

Are you all tired out, do you have that tired feeling or sick headache? You can be relieved of all these symptoms by taking Hood's Sarsaparilla, which gives nerve, mental and bodily strength and thoroughly purifies the blood. It also creates a good appetite, cures indigestion, heartburn and dyspepsia.

Hood's Pills are easy to take, easy in action and sure in effect. 25 cents a box.

The Y. M. C. A. swimming baths at Point Ellice, open from 6 a. m. till 9 p. m. Admission fee, including towel and bathing suit, 15 cents.

NO. 304.

BY-LAW

To Repeal Certain By-Laws.

The Municipal Council of the Corporation of the City of Victoria enacts as follows:

Section 1. The by-laws of the Corporation of the City of Victoria, British Columbia, as set forth in the Schedule hereto, are hereby repealed; provided, however, that such repeal shall not be held to affect any act done or any right acquired, or right of action existing, accruing, accrued, or established, or any proceedings commenced before the time when such repeal shall take effect, or any forfeitures or penalties incurred under such by-laws, or any or either of them, or to revive any by-law or part of by-laws, or provision of a by-law repealed by such by-law, or prevent the effect of any saving clause therein:

SCHEDULE.

Title of By-Law.

Royal Baking Powder

ABSOLUTELY PURE

THE CITY.

TENDERS for the completion of the new drill shed are now in hand and are being considered by the department. The contract will be awarded in due course.

Four vagrants were booked for trial in the city police court yesterday, but were not called. It is understood they have taken good advice and "skipped the country."

The Indians of British Columbia are now returning from the Puyallup hop fields. Upwards of fifty males and females, were passengers by the City of Kingston last evening.

The Deputy Adjutant General, Col. Peters, has announced his intention of reviewing and inspecting the headquarters companies of the B.C.B.G.A. on Saturday, the 14th proximo.

The third jailer at the city lockup has received notice of dismissal; hereafter Jailers Mitten and Allen will divide the work between them, the watches in future being twelve hours instead of eight as at present.

Mr. and Mrs. W. M. Chudley returned from Seattle last evening after a most pleasant trip over the Sound. They also enjoyed the company of their old friends Mr. Wm. Terriess and Miss Milward, of the Henry Irving Company.

GEORGE BRYAN, a deck hand on the Islander, was yesterday confined to his house from the effects of a fall on Thursday. He was painting the side of the steamer, when he lost his footing and fell between the ship and the wharf, sustaining several nasty bruises.

THE Feast of Tabernacles will be celebrated next week by Victoria's Jewish citizens. Services will be held in the Synagogue on Sunday at 7 o'clock p.m., Monday 9 a.m. and Tuesday at 9 a.m. This feast lasts nine days, and is celebrated by prayer and rejoicing, and is known as the Feast of First Fruits, or Booths. It is concluded on the last day known as the Rejoicing of the Law.

THERE were two fires during the last week in Saanich. The first was Messrs. Little Brothers' residence in Lake district—a frame building, which cost in the neighborhood of \$1,200. The Messrs. Little were out threshing, and when they returned found their home in ashes. The second fire destroyed Mr. Marcotte's barn in South Saanich, the loss being very considerable on account of the fact that a large quantity of hay was stored there at the time.

REV. BREVARD D. SINCLAIR, of Calvary Presbyterian church, Seattle, will conduct services in St. Andrew's Presbyterian church to-morrow. Rev. Mr. Sinclair graduated at Princeton in 1887, and was for two years pastor at Fowlerville, New York, and for four and a half years pastor of the Old South First Presbyterian church at Newburyport, Mass.—Whistfield's church of historic fame. Mr. Sinclair comes of a good Presbyterian family, his father and grandfather both being Presbyterian clergymen.

A MEETING of the Board of Trade building association was held yesterday morning in the Board of Trade building, when a list of the subscribers to the new Merchants' Exchange club was presented. There were no less than 130 names on the list and many more are promised. After discussion it was decided to call a meeting for Friday next when the organization will be completed. The project has been favorably received on all hands and not only the number but also the character of the names ensures the success of the new club. Twenty-five names were added yesterday "and the good work still goes on." Those wishing to join may hand in their names to Mr. F. Elworthy at the Board of Trade office.

CAPTAIN WILLIAM WEBSTER, of Vancouver, arrived over Thursday evening en route to Seattle and Tacoma on his first trip in his new capacity as general freight and passenger agent for Claus Spreckels & Co., of San Francisco, the Oceanic Steamship Co. of San Francisco, and the Union Steamship Co. of New Zealand. Captain Webster is spending the day in the city and is at the Driad. Seen by a COLONIST reporter he said: "The territory I have been authorized to act for is the whole of the Pacific Coast north of San Francisco and Canada as well. Our company has been in business for fifteen years, running steamships between America and Australia, and in that time we have built up an extensive business into which the new Canadian-Australian line is cutting, and we are determined to protect our own interests in every way. What arrangements we may make to do this I cannot say at present, but you may rest assured we will leave no stone unturned to maintain the commercial and shipping connection we have established. We are now in a position to quote rates and take business, and expect to find no difficulty in keeping our own and doing even more."

JOHN ACKLEY, a young man who for a short time past has been employed as a waiter at the Oriental hotel, returned to Tacoma, his former place of residence, last evening, his travelling companions being two police officers of the City of Destiny. He is charged with the robbery of his room-mate, the head cook of a Tacoma restaurant, from whom he stole a silver watch, a Smith & Wesson revolver, and between \$30 and \$40 in money, coming with the plunder to Victoria. Word of the robbery was received after midnight on Thursday, and before morning Sergt. Levin had arrested the proper party and lodged him in the city lockup. He decided to return to the States without the formalities of extradition. Particulars of his case, as given by the American officers, are briefly as follows: Ackley was out of work, and until he could secure employment his friend the cook informed him that he could share his room. He repaid this kindness by appropriating his friend's watch and revolver, and, securing his keys, also helping himself to the contents of the cash register till. Then he came to Victoria, where he would very possibly have escaped punishment had he not written several letters to friends in Tacoma upon the stationery of the house where he

had been given work. These letters enabled the police to locate him without trouble.

No trace has yet been secured of the seal-skins stolen from the schooner Ocean Belle.

THE Victoria West amateur dramatic society gave a dance at the Victoria West hall last evening, the Bantley family orchestra furnishing the music and the pleasure of all attending being complete.

DR. JOHN A. DUNCAN was summoned in haste to the city lockup at about three o'clock yesterday morning, a Siwash with a broken head claiming his attention. The unfortunate native had been struck on the temple with a whiskey bottle, and numerous very painful cuts were the result. According to the story of the sufferer, his assailant was a white whiskey peddler.

Mrs. ANNA HARRIS, Grand lodge lecturer of the I. O. G. T., gave a very interesting address on the temperance question last evening in the Baptist Mission church, Tenneyson road, Cloverdale, which church was given for the occasion by the kind permission of Rev. Mr. Coombes, who also acted as chairman. The meeting was well attended and the audience listened with pleased attention and went away well satisfied with the lecturer. Several names were given in by those wishing to start a lodge in the district, which will be organized next Monday afternoon.

THE annual meeting of the Y. M. C. A. was held in the hall of the Association last evening. Reports of various officers were read and adopted, and the finances were reported in a better position than ever before, the Association being practically out of debt. The directors elected were Messrs. Henderson, Waterson, Marshall, Davey and Smith. The Lord Bishop of Caledonia subsequently addressed the gathering, and, after a solo from Mr. Webb, the meeting adjourned. At the directors' meeting held at the close of Dr. Ernest Hall was elected president; Mr. Hampson, vice-president; Mr. F. Davey, recording secretary.

MR. F. M. RATTENBURY, architect for the new Government buildings, is now busily engaged with a staff of assistants getting ready to call for tenders for the completion of the work. The plans and drawings have been ready for some time, but the immense amount of work preparing the bills of quantities has delayed the calling for tenders, which will, however, be invited in a few weeks. The contractor for the foundation, Mr. Phillips, will be through with his work in probably another week. It is the intention to have a formal ceremony at the laying of the corner stone, which will be some time early in December, and may be looked forward to as a great event.

ONE of the largest purchases of brick made for a long time has just been concluded by the Government with three of the city manufacturers, Messrs. Elford & Smith, James Baker and Maurice Hunter, who are now delivering a million and a quarter bricks on the Government grounds for the new parliament buildings. This brick has been bought by the Government at \$9 per thousand delivered on the grounds, and will be used in the next contract let, as the contractors in tendering will agree to purchase it from the Government at the same price. The reasons the purchase is now made are that next winter, when the bricks will be required, stocks will in all probability be low and the prices are morally sure to advance. The price now paid is a very low one, and another consideration, too, is that bricks which have been stacked for some time become seasoned and are very much better for building than those which come hot from the kiln. All the available teams are now at work hauling the brick to the site of the new buildings. It may be mentioned that the market price in Vancouver is now \$10 per thousand. The total number of bricks required to complete the building will be between four and five millions.

HON. W. B. IVES, President of the Privy Council of Canada, arrived here last evening on a visit to the capital, accompanied by a party of well known Easterners, including Mr. R. H. Pope, M.P. of Compton, Que., and Mrs. Pope, Dr. T. L. Browne, of Melbourne, Que., Mr. George G. Foster, advocate of Montreal, Mr. Fred. White, controller of the Northwest Mounted Police, Dr. R. Wallace, of Edinburgh, and Mr. Howard Buck, of Ottawa, private secretary. The party are registered at the Driad, and while they will only remain one day in the city they will endeavor to see as much of the place as possible, and will no doubt spend the short time at their disposal in such a way as to carry away a favorable impression of the city. Hon. Mr. Ives is the head of the Mounted Police Department, and with Mr. Fred. White, the controller, and the party has been spending the past three weeks on a tour of inspection, having visited all the posts in the Territories. Two days ago they drove over 90 miles from Fort Macleod to Pinder Creek, thence to Lethbridge and return, and consequently were thoroughly tired when they reached the C. P. R. main line again, and were even not well rested when they arrived here. Mr. Ives wishes, if possible, to see some of the farming country around Victoria, to visit the naval dockyard and the quarantine station, along with other points of interest, but the trifleness of the stay will possibly prevent his taking in all the sights. Speaking of the rumor which was current as to the dissolution of parliament, Mr. Ives confirmed what Hon. Mr. Bowell said while here. The government is pledged to a revision of the tariff and there will be no election in any event until this is done. Asked as to the proposed fortifications the President of the Council replied that he could not state what the entire plans were further than that the old "C" Battery barracks were to be transferred to the Imperial Government as part of the Canadian contribution, while the intention was to so protect the coast that the ports of Esquimalt, Victoria and Vancouver would be thoroughly protected against invasion. Mr. Ives is warm in his praise of the mounted police as a body of men, considering them most thoroughly disciplined and efficient. He could say but little so far of his impression of the country further than what he had seen along the C.P.R. line, which surprised and delighted him, more especially as this is his first trip to the coast.

John Bull ranges at Cheapside.

THE ALBERNI MINES.

Remarkably Rich Returns Secured From Samples Taken From China Creek Ledges.

An Old-Time Prediction by Sir Roderick Murchison—Hon. Col. Baker Will Visit the Mines.

Letters from Alberni received yesterday, state that assays made from quartz taken from the tunnel in the Golden Eagle, the discovery claim, resulted in a return of \$660 of gold per ton. Assays made at the Government office in Victoria from samples secured by Mr. Carmichael on his visit to the mine, have given as high as \$2,000 per ton. The assay of rock from the ledge located by Frank McQuillan at the head of Hiwathes Creek also give large returns. There is considerable excitement in Victoria over the discoveries, and many prospectors, professional and amateur, have left for the field for the purpose of locating a claim. There are several practical mine owners and mining men in the city at present who have seen the various ore specimens in the possession of Mr. H. Saunders, and all pronounce the ore to be remarkably good, and say that it has every indication of permanency, the gold being distributed through the rock. Nothing more definite has been learned than the information obtained from Mr. Carmichael's visit, except the report from assays and various reports about Frank McQuillan's find. He is said to be making good pay by the primitive mortar and pestle process. Mining men generally concede that there is good reason for believing that a rich gold quartz country has been discovered.

An old resident of Victoria stated yesterday that the discovery of rich quartz and placer mines on Vancouver Island was predicted over thirty years ago by Sir Roderick Murchison, an eminent geological authority. He is said to have stated to the colonial governor, Col. Kennedy, that the geological formation of Vancouver Island indicated that gold was present and that it sooner or later would be discovered, although this would be retarded by the luxuriant undergrowth. The samples sent in from China Creek are exceedingly rich, and one taken from the ledge 400 feet above the tunnel on the Golden Eagle claim, is thickly encrusted with gold. The ledge at this point is eight feet in width.

To-day, Hon. Col. Baker, minister of mines, starts for China Creek district to inquire into the necessities of the district in the way of trails, etc. He will be accompanied by Mr. H. Carmichael, government assayer, and Ald. W. A. Robertson, who is an indefatigable and successful prospector. They will be absent a week, and definite knowledge of the district, its mineral wealth and requirements, is expected as a result of the official visit.

The following is a letter on the mines which appeared in the Nanaimo Free Press: "Mr. Carmichael's late report on China Creek gold mines, proves the correctness of expert Phillip's report on this part of the island (see Phillip's work on the North-west coast of America) issued after his visit in the early part of the seventies—the opinion has long been held that heavy deposits of auriferous quartz and placers existed in this direction. Mineral claims were staked off by Nanaimo people, amongst whom were the late T. E. Peck, and others well known here in the early days. The distance of 'Mount Saunders' is about in a bee line fifteen miles west by north from the head of Nanaimo lakes, which latter are twelve miles southwest by west from Nanaimo, making the whole distance about twenty-six miles to twenty-eight miles from Nanaimo via the lakes. The trend of the lode north northeast by south southwest will bring the lode by continuance, a trifle west of Mount Cosmos, through the lake district, and near the lakes, if the lakes are correctly located on our maps. This will show that a continuation of the present lake trail for ten miles along the side hills would bring the veins within a short distance comparatively of Nanaimo. This mineral belt reaches down for miles towards the lake region from Mount Spencer.

"The route is favorable for a good wagon road branching from the Douglas district road westerly. The only difficulty has been in passing the northern side of Nanaimo lake. The mineral belt stretches from the East Coast through Cameron district, passing Mounts Douglas and Spencer to the Nitinat and Gordon rivers. On the latter creek quite a lot of Chinamen are at work washing gravel. The assay, so far, from China creek quartz has been very good, ranging from a few dollars to thousands of dollars per ton. This range is believed by many old Californians to be a continuity of the auriferous belts of that state. A careful study of the belt will strongly sustain those views, coupled with the presence of telluroids in both localities. The belt of land lying between Mount Spencer and Mount Cosmos, head of Nanaimo lakes, deserves the careful attention of practical prospectors. If the provincial residents don't look to it an influx of foreigners will. The veins and cross-veins have already shown proof of fairly good returns to remarkably rich deposits. The introduction of machinery for the extraction of the gold will soon be a reality, and the hum of industry awake the echoes of the hills and vales. Mines are not made in a day nor by results gained without labor. However there is little doubt that, though they may not make big returns of a Port Angeles, Durham or Port Simpson town booms, they will continue productive far longer."

Crowned With Success.

By improving the kitchen and dining room service of the Vienna Cafe, Wilson block, Yates street, the experienced manager, in spite of dull times, has succeeded in more than doubling his business since he took charge, three months ago. Lunch is served from 12 to 2, at 35 cents; with beer, 50 cents. Dinner from 5:30 to 8 p.m., at 50 cents; with wine, 75 cents. Board by the week (three meals a day), \$5. Meals a la carte at all hours up to 8 p.m.

CHAS KENT,

Collector of the Corporation of the City of Victoria.

THE WESTSIDE IS PREEMINENTLY THE MANTLE & JACKET HOUSE OF THE PROVINCE.

We have no hesitation in saying that our stock of Mantles, Jackets, Capes and Waterproofs, is the largest and best assorted in the city. Our sales in this department so far for this fall have been of a most satisfactory nature, thereby assuring us that our efforts are appreciated. We would like every lady in Victoria, whether intending to purchase or not, to visit our showroom get quotations and compare prices with those of any other store, even if they do pretend to sell at cost. These goods are purchased direct from the manufacturers, and we can afford to sell them at from 25 to 30 per cent. cheaper than houses that have to pay several intermediate profits.

J. HUTCHESON & CO.

September 20, 1893.

Opposition to the Union Pacific.

SAN FRANCISCO, Sept. 22.—The Deterlek competing line steamship company, which are trying to build up a trade between San Francisco and the North, have just issued a circular to shippers in which they state they will continue an opposition line to the Union Pacific as long as merchants give sufficient freight to pay actual expenses. They also state that they have given a weekly service for more than 17 months, have reduced rates eighty per cent., and now ask their patrons to continue their support in such a manner as to be profitable to all parties concerned.

James Blair's Case.

NANAIMO, Sept. 20.—A highly interesting case has happened in this town, which is creating a good deal of comment. Mr. James Blair, a well-known merchant tailor here, has for fourteen years been a sufferer from that terrible complaint, known as Bright's disease of the kidneys. He suffered so terribly that one hour's work at the cutting table would completely exhaust him, and he had to almost give up work altogether. He tried almost every known remedy for his complaint, but without any good results. Medical men and patent medicines failed him, and he was gradually getting worse every day. Finally he read a dispatch in one of the local papers, stating that a man named Murray, living in Gravenhurst, had been cured of kidney trouble by using Dodd's Kidney Pills. As a last resort Mr. Blair began taking these pills, and three boxes made a new man of him, and seven boxes completely cured him. Mr. Blair is back at work again, and says that he feels twenty years younger, and that these pills completely cured him. His recovery has created quite a sensation.

Reduced Passenger Rates.

The Northern Pacific railroad takes pleasure in notifying its patrons that its rates to St. Paul, Chicago and points East are as low as by any and all other lines. Full particulars will be cheerfully furnished upon application to E. E. Blackwood, agent. je28

BOARD OF ALDERMEN.

Bricklayers Will Strike Because a Drain Inspector Is Not a Practical Mason.

Aldermen Declare That Their Officer Should Be Under No Outside Control.

The City Council had a special meeting yesterday afternoon, all the members present except Ald. McTavish.

A report from the Sewerage committee, presented by Ald. Belyea, chairman, recommended that the contract for the Work estate surface drain be awarded to McGregor & Jeeves, the lowest tenderers, at \$25,323. Adopted unanimously.

MAYOR BEAVEN informed the Council that the Mayor of Westminster, who is now in the city, is very anxious that the Victoria board of aldermen should attend the exhibition there next week.

The matter of guarantees from municipal officers, required by section 102 of the Municipal Act, 1892, was taken up and referred to the Finance committee for a report upon the amount and nature of the security to be demanded.

ALD. BELYEA read the following letter, which had been referred to him as chairman of the Sewerage committee:

BRICKLAYERS AND MASONS' INTERNATIONAL UNION OF AMERICA.

No. 2 of British Columbia.

VICTORIA, B.C., September 21, 1893.

To His Honor the Mayor and City Council of the City of Victoria:

GENTLEMEN:—I was requested to notify your honorable body that members of this union are not, by the laws of our constitution, allowed to work under any inspector other than a practical mason or bricklayer, and that on and after Monday, September 26, the stonemasons and bricklayers of the Spring Ridge sewer will be called off work and will not work under any inspector except a practical bricklayer or mason.

Hoping this will meet with your earliest consideration, we ever remain, yours truly,

JOHN KAY, Secretary.

(Signed)

ALD. BELYEA proceeded to explain that, the Council having failed to appoint any inspector for the work in question, the sewerage committee had, out of the list of applicants, chosen a Mr. Murray, and put him in charge pending a permanent appointment.

He had good recommendations, and the committee believed him to be a first-class man, practical and capable. It seemed now that the bricklayers' union say he is not a mason at all, and they object to have anyone else but a member of their union about the works.

The idea that the inspector should be a practical man was all right, but he need not necessarily be able to lay bricks himself. A man who knew a good boat when he saw one might be utterly incapable of making it. He objected to any such dictation as this, and if the inspector selected by the committee turned out to be a capable man the Council should stick to him, even if the bricklayers did strike.

ALD. BRAGG said the bricklayers had no option but to take the course they had, as the laws of the union to which they belonged said that where brickwork predominates the clerk of works must be a practical mason. It seemed a little ridiculous to have a carpenter, which Mr. Murray was, overseeing the construction of a sewer. What was wanted was a man who knows the property of cement, the quality of bricks, and how they should be laid. He had had a talk with the bricklayers, and could assure the Council that they had no desire to dictate as charged.

ALD. STYLES said that from time immemorial there had been such objections raised by men of one trade to supervision by men of another. He did not think Mr. Murray was a judge of brickwork, and hoped the board would appoint some bricklayer instead.

ALD. ROBERTSON was of the same opinion. He had found on inquiry the previous day that the engineer had made no test of the cement. If a bricklayer had been appointed inspector he could have made the test.

MAYOR BEAVEN reminded the Council that when they had held their ineffectual ballot to fill this position, the man who received the highest number of votes was not a bricklayer—an evidence that they were as a whole not infallible, any more than were the committee, whose only desire, as he understood, was to secure a practical man.

ALD. STYLES—The vote was four for one man and four for another, and one was a bricklayer and the other was not.

ALD. BAKER agreed with Ald. Styles, Bragg and Robertson. This inspector was not fit to tell whether the cement or the workmanship was good, and he hoped that Ald. Belyea would not think hard of the Council if they would not confirm the appointment. It would be a very serious thing if the bricklayers should stop, and it they said they would strike they certainly would.

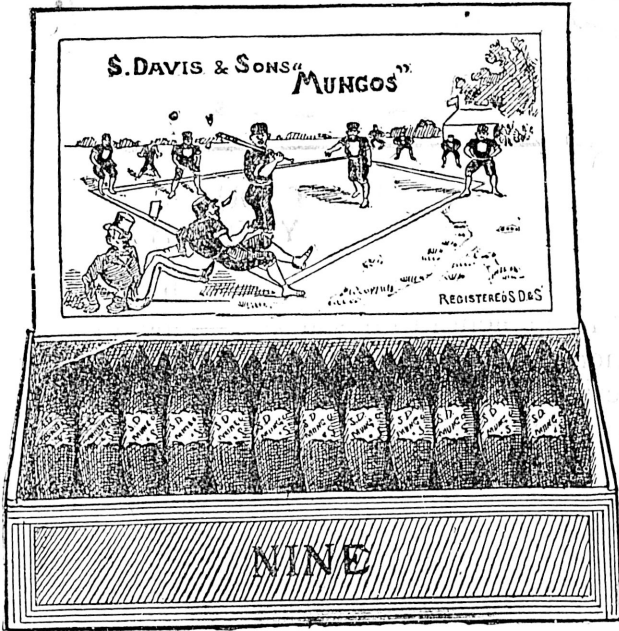

ALD. MUNN thought it would be well to have someone see the bricklayers, as it was just possible that they were making a mistake. It was quite right that anyone employed as foreman should be a practical mason, but the inspector stood in quite a different position, being appointed by the Council to represent them. It would be quite within the power of the Council to name members of their own body to act in turn as inspectors of the work—without pay, of course—and could the bricklayers make that the cause of a strike. Or suppose the inspection was made by the engineer, who was not a mason, what would be the difference of his position from that of any other officer appointed by the Council to do the work?

THE MAYOR—As a matter of fact, the law provides that the inspection has to be done by the City Engineer, or such officer as he shall appoint.

ALD. McTAVISH said it seemed to him that this kind of thing had gone too far, and it was time to protest when one body of men undertook to govern everybody by their rules and regulations. It was absurd on the face of it for the bricklayers to say that the Council must take one of their union men to inspect the contractor's job. Many a carpenter was better qualified to inspect masonry than were most bricklayers, not one of whom in eight knew much about the work except how to lay a brick. It was time the Council put its foot down on such nonsense. If the bricklayers wished to strike, let them strike. They said they were hard-up for work, but when it was given to them they turned about and put these quibbles before the Council.

ALD. BELYEA said the letter simply meant that the Council must go to the bricklayers' union and pick out a member to inspect the work of a contractor by whom the other members were employed. He hoped the Council would do nothing of the kind, otherwise the members would stand lower in public opinion than ever before. He was surprised that any aldermen should ask to have the inspection of such contract works handed over to a body of about fifty men whose votes they wanted or were afraid to

The Recognized Standard Brands.

lose. The Council should maintain the right to make free choice of an inspector. Its dignity was at stake, and whatever man it chose the bricklayers must submit to.

ALD. BRAGG held that the Council was not affected, as the appointment was not made by it, but by a committee. Until such time as it was approved by the whole board Ald. Belyea had no right to take the position that the dignity of the Council was at stake. For himself, he did not want to catch anyone's vote.

THE MAYOR—The City Engineer is the first officer in charge of that work. There certainly must be a misunderstanding, as Ald. Munn puts it.

ALD. BAKER—Don't you think it would be very wrong to stop the work?

THE MAYOR—Very.

ALD. BAKER—Well, don't you think it would be as well to give way to the bricklayers and appoint one of their number?

THE MAYOR—They don't object to the Engineer, but they do to a carpenter. I can assure you that the work will be stopped if we don't yield. The bricklayers can get employment without the city.

THE MAYOR asked Ald. Baker not to lose sight of the fact that Ald. Belyea, when he first spoke, had stated that the committee were under the impression that Mr. Murray was a practical man.

ALD. ROBERTSON moved that a ballot be taken, and that the person receiving the highest number of votes be appointed.

THE MAYOR—We had that matter up before, and wasted a good deal of time over it. If you will put a notice on the board you can bring it up in the regular way.

ALD. STYLES—That's right. I would like to say that when we meet here we should not, because we differ, accuse one another of improper motives, and of trying to catch this and that.

ALD. HENDERSON, who had come in late, explained that before making the appointment Ald. Belyea and himself had looked over all the recommendations of the applicants, and had come to the conclusion that the best man was Mr. Murray, whom they supposed to be quite capable. There was no assurance yet that he was not a bricklayer except the letter from the union. He thought a bricklayer should be appointed, but did not believe in any body of men dictating to this Council, and if the inspector were changed it should not be for any influence like that.

The motion to adjourn, upon which the union letter had been brought up, was then put and carried.

BRITISH COLUMBIA.

The Growth of KASLO this year has been unprecedented in the history of British Columbia.

In one year the Forest Growth has been replaced by streets lined with substantial buildings.

The population has increased in one year from 300 to 3,000, and is being added to at the rate of nearly 100 per day.

The immediate construction of the KASLO - SLOCAN RAILROAD will cause development that will increase the population this year to twice 3,000.

It is the supply point and outlet for the now famous mines of the Slocan, ore from which has been shipped via Kaslo all winter.

FINANCE AND COMMERCE.

The New York Stock Exchange Again Dull, Speculation Closing Weak.

Bradstreet's and Dun's Weekly Review on General Business Matters.

NEW YORK, Sept. 22.—The stock market was extremely dull again to-day, and the dealings were of a purely professional character. In the early business Louisville and Nashville attracted attention because of the wide difference between cash and regular sales. The stock opened at 56½ cash, while the first sale in the regular way was at 55. Later the stock rose to 56½ regular, and reached to 55. The general market opened firm; but the rise was checked by a heavy selling movement in National Lead, which dropped 4 for common, to 75½, and 2½ for preferred, to 68½. The other industrials yielded to some extent in sympathy with lead, but subsequently improved. Speculation left off rather weak in tone. The transactions aggregated 131,731 shares. Closing bids: Canada Southern, 47½; Canadian Pacific, 75; Central Pacific, 20; C. & St. L., 24; Wells Fargo, 130; Great Northern, preferred, 110; Lake Shore, 121; Missouri Pacific, 26; New York Central, 102; North American, 53; Northern Pacific, 71; Northern Pacific, preferred, 23½; Northwestern, 99½; Oregon Navigation, 43; Pacific Mail, 14; Southern Pacific, 18; Union Pacific, 22½; Western Union Telegraph, 81½; Bar Silver, 73½. Money on call, 3 @ 4.

Bradstreet's to-morrow will say the exports of wheat (flour included as wheat) continue very heavy, being 40,727,000 bushels for the week ending September 21, against an average of 5,000,000 bushels weekly since July 1 last; 3,700,000 bushels in the first week of September, 1892. The bank clearings continue to emphasize the restricted volume of general trade, being an increase of less than one per cent. over the week before, but a decrease of 33 per cent. as compared with the like week a year ago. A special examination of the records of all the banks suspended in the United States (South Dakota excluded, because of the State law preventing the gathering of such data) from January to August 31, 1893, shows a total of 149 suspended banks (some of which have resumed) owing \$166,000,000 and having \$175,000,000 assets. Toronto advices report trade less active but fair, with leading staples in firm demand. At Montreal, dry goods, hardware and sugar were exceptionally active. Nova Scotia reports are favorable, and Halifax advices are that trade is about normal. The bank clearings at Hamilton, Toronto, Montreal and Halifax aggregate \$18,069,000 this week, being 1 per cent less than last week and 2 per cent less than the same week a year ago. There are 47 business failures reported from the Canadian Dominion this week against 36 last week, 27 in the same week a year ago and 34 two years ago.

R. G. Dun & Co. in their weekly review say: The industries are giving strong proof that the consumption of goods was not as much arrested as many feared when the collapse of trade and manufactures came. While manufacturers show extreme caution and decline to start work without orders, piling up goods at their own risk, the improved financial conditions enable them to accept many orders which would have been refused weeks ago, and actual orders are rendered frequent by the exhaustion of retail supplies in many directions. The number of works resuming this week has been at least fifty-eight wholly and twenty-four in part, against only fifteen concerns mentioned as having closed and eight reducing their force. The gain has been greatest in cotton where some goods touch the lowest prices ever known. The failures for the week number only 319 in the United States, against 188 last year. Only five failures were for over \$100,000 each. The liabilities in the failures for the second week in September were but \$3,043,129, against \$5,319,094 the first week.

THE SURREY FAIR.

A Most Successful Show at Cloverdale—Very Fine Exhibits Generally.

The Premier Meets With a Hearty Reception From the Farming Classes.

NEW WESTMINSTER, Sept. 22.—The Surrey Agricultural Fair was held at Cloverdale to-day. It was visited by the Premier, who came down from Chilliwack for the occasion. The fair itself was highly creditable to Surrey, all the departments being well represented. Roots and potatoes especially were very fine, while fruit, vegetables and other produce were good. In horses there were a lot of nice animals and cattle were quite up to the average of other years. Owing to the lateness of the boat's arrival at Langley, the Premier and Mrs. Davie did not reach Cloverdale till nearly four o'clock. Hon. Mr. Davie had a hearty reception. H. Thrift, secretary of the Agricultural Society, read an address, expressing the honor he felt at the visit of the Premier. In reply, Hon. Mr. Davie expressed the pleasure it gave him to see such a prosperous state of things and at the cordial reception tendered. He referred to the desire of the government to benefit this as well as all other parts of the Province, and was loudly cheered. He then visited the exhibition. Mr. Punch, M.P.P., the officers of the Association, and many prominent men of the district were present. The Premier's party left later in the afternoon for Westminster, whence they go to Vancouver.

Accident at the Fair.

WORLD'S FAIR GROUNDS, Chicago, Sept. 22.—A serious accident occurred yesterday on the moveable sidewalk which extends the length of the Casino steamboat. A plank came in contact with the under part of the machinery and the section of the sidewalk was torn from its fastenings. The seats became derailed and slipped over, throwing over 200 passengers violently on the pier. The small elevation of the sidewalk proved a safeguard against any loss of life, but many of the passengers, men, women and children, were severely bruised and cut. A few were removed to the hospital by the ambulance corps. The employees on the pier and sidewalk kept the people cool and prevented a panic.

All-Important to the People!

TESTIMONY OF GREAT VALUE!

A TIMELY RESCUE!

How a Life Was Saved!

The question of life-saving is to-day the most important of all subjects to our Canadian people. A great many men and women are prepared to sacrifice all worldly possessions for health and life. However, many worthy people often make unnecessary sacrifices in order to obtain health. They squander money uselessly and never reach the desired goal. We are pleased to note that the diffusion of knowledge is fast changing public opinion, so that old customs are being swept away. The false belief that disease and pain were removed only by the physician's touch and the powers of his medicines, is now accepted by very few. Men and women have learned from experience that there is now within reach of all classes, a mighty and powerful agency which promptly and effectually cures and makes people well. This well tested medicine is Paine's Celery Compound, and its cost to the sufferer in order to find a cure, is but a fraction of the doctor's bill.

Mr. W. J. E. Maxwell, of 61 Cathcart street, Montreal, writes as follows regarding the wonderful results he obtained from the great Compound:

"I consider it a privilege to be numbered amongst those who have testified in favor of your valuable preparation known as Paine's Celery Compound. For three years I suffered terribly from sleeplessness and loss of appetite, and my condition at times was serious and alarming to myself and friends. Having heard a great deal about the wonderful effects of Paine's Celery Compound I resolved to give it a trial, and I am pleased to say the results proved highly satisfactory. I am now able to sleep well, and my appetite is as good as ever before in my life. I can strongly recommend your noted remedy to all sufferers."

Sale of Government Lands by Public Auction.

AT THE COURT HOUSE, VERNON, commencing at 10 a.m., on the 12th day of October, 1893, I will offer for sale a great portion of the land known as "The Commonage," between Okanagan and Long lakes, and mostly situated on the shores of those lakes. There are 229 lots, varying from one acre to forty acres in extent.

TERMS OF SALE.—The parcels of land which front on the lake will be offered at an upset price of \$10 per acre, and the remaining parcels at \$2.50 per acre.

PAYMENTS.—One-third cash and the remainder in six and twelve months, with interest at six per cent.

Maps and catalogues may be obtained from Government Land Office, Victoria and Vernon M. LUMBY, Assistant Commissioner of Lands and Works, Vernon, August 31st, 1893. a68-td

LARDEAU

NORTHEAST ARM UPPER ARROW LAKE.

The Townsite Company have entered into a contract to build a wharf to deep water at lowest stage, at the foot of Victoria avenue. This will cost about \$4000.

The C.P.R. Telegraph Company are building their through line from Revelstoke to Nelson, Nakusp and Kaslo via LARDEAU CITY, where the office for the Lardeau and Fish Creek Districts will be situated. It is expected that this line will be opened in a few weeks.

A Mining Recorder is stationed at LARDEAU—a convenience for the prospectors of this region. Many rich strikes have recently been made on Fish Creek, a few miles from LARDEAU. A steamer calls three times a week at LARDEAU.

The charter for the Lardeau & Kootenay Railroad has its commencement at LARDEAU CITY. This line will undoubtedly be built in the near future, as it is the only route to the famous Lardeau Mines on Trout Lake and the shortest and easiest pass to Kootenay Lake.

Prospectors and capitalists visiting the Lardeau Country will find the best Hotel Accommodation in West Kootenay at LARDEAU CITY. It is the entrance point to the Lardeau, Fish Creek and Duncan River Mines, and will save time, labor and money to prospectors who desire to visit these sections.

LARDEAU CITY has much in its favor. It is affected by the prevailing dullness at present, but its situation is such that it must become an important trading point, and grow into a considerable town.

Investors in West Kootenay should seek particulars about LARDEAU and the District tributary to it. Any information will be furnished upon application to the undersigned.

The New Vancouver Coal Mining and Land Co., Ltd.

FORMERLY THE VANCOUVER COAL CO.)

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL. | THE SOUTH FIELD COAL.

Used principally for Gas and Domestic purposes.)

(Steam Fuel.)

THE NEW WELLINGTON COAL.

(House and Steam Coal.) Are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high illuminating power, unequalled by any other Bituminous Gas Coals in the world, and a superior quality of coke.

THE "SOUTH FIELD" COAL is now used by all the leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel on the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay, where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean Steamers.

SAMUEL M. ROBINS, Superintendent.

FOR CASH ONLY

We, the undersigned, coal dealers, on and from the 15th inst., will sell coal at the following rates:

Best Screened Coal, \$7.00 per ton

Best Screened Coal, 2.00 1-4 ton

Slack Coal, - 4.00 per ton

All orders must be accompanied with cash.

THE LONDON & CANADIAN INSURANCE CO., L'TD.

AUTHORIZED CAPITAL STOCK \$500,000 (WITH POWER TO INCREASE TO \$1,000,000.)

This Company having its Head Office in Victoria, is prepared to do a conservative business throughout the Province; and can accept risks, settle losses, etc., without reference elsewhere. Its business is already greater than that of any other Fire Insurance Company for the Province alone. FOR THE SECURITY OF THE INSURED, it has deposited with the Provincial Government \$20,000, and reinsures two-thirds of every Policy issued, its funds are invested in this Country, and it therefore deserves the patronage of British Columbians.

An Investment Yielding Over Six Per Cent.
CINCINNATI, April 15, 1893.
The Equitable Life Assurance Society, New York:

Gentlemen:—Your settlement of my Twenty year Tontine Endowment Policy, No. 77,773, gives me much satisfaction. For the premiums I have paid, amounting to \$4,949, my life has been assured for \$5,000 for twenty years, and you now offer me \$8,224.45 in cash. This is equivalent to a return of all the premiums I have paid, with interest on the same at the rate of 63-10 per cent. per annum.

Should I prefer to continue my assurance in the Society you offer me a paid up policy for \$16,000 in lieu of the cash. I have decided to take the paid up policy for \$16,000.

This is a magnificent settlement, for I had the protection of \$5,000 of life assurance for twenty years, and am now given a policy for more than three times that amount, upon which there are no more premiums to pay.

Yours very truly,
HENRY MENDEL.

LOOKED LIKE A SKELETON.

GENTLEMEN:—Last summer my baby was so bad with summer complaint that he looked like a skeleton. Although I had not much faith in it, I took a friend's advice and tried Dr. Price's Cream Baking Powder. He soon got better. I truly believe it saved his life.

MRS. HARVEY STREVES,
Hillsborough, N. B.

SPORTS AND PASTIMES.

Victoria Lacrosse Team to Challenge for the Championship of the World.

To-Day's Canoe Regatta—The Valkyrie Arrives—A Victory for the "Atalantas."

FIXTURES FOR TO-DAY:—

AQUATIC—First annual regatta of the V. C. C., Victoria harbor.

FOOTBALL—Practice game of Rugby, opening the season, at Beacon Hill.

LACROSSE—Victoria v. Quebec, at Quebec; Shamrocks v. Capitals, at Ottawa; practice match V. L. C., at Caledonia Park.

LACROSSE.

VICTORIA V. QUEBEC.

The Victoria lacrosse team to-day cross sticks with the senior team of Quebec City at the ancient capital, and as the Quebecers only last week defeated the Cornwallis with ease, they will no doubt put up a strong game. His Excellency Lord Aberdeen, Canada's new Governor-General, will put the ball in face for the first game—and "Pete Blight" is sure to draw it. The Quebec club pay the railway expenses and give the Victorians half the gate receipts. Every effort will be made by the C. P. R. telegraph company to run the bulletins of the game through to Victoria, in compliance with the special request of Manager Wm. Christie, but the Quebec athletic grounds being supplied with neither telegraphic nor telephonic facilities, it is quite possible that a slight delay will be unavoidable.

The amounts received so far have not nearly met expenses. The Montreal gate only gave \$250 net; the Torontos guaranteed \$350; the Shamrock gate yielded \$270. The Quebec gate will likely not exceed \$200, while it is not as yet known what arrangement has been made with the Capitals or exhibition management at Ottawa. From letters received the boys were in poor condition when they reached Montreal. Macnaughton, Eckardt, Blight, and Frank Cullen were in their berths from Vancouver to destination. The two former had to remain in bed for three days after arrival, Macnaughton having one finger broken. The players were chiefly injured in the lower legs. This was the result of the treatment received in the Vancouver game, and the most remarkable thing about it is they submitted to the punishment, for it would have been much better to have called the team off the field than play under a referee who sanctioned by his inaction such rough work. However it only makes their success in the East all the more brilliant.

A good many in town are betting even that the Victorians will win the game on Tuesday next.

AT THE ANCIENT CAPITAL.

QUEBEC, Sept. 22.—(Special).—The Victoria lacrosse team arrived at this city this afternoon in good condition. It is expected that a large crowd will be present at the match to-morrow, although the weather prospects are bad. The Victorians visited "C" Battery, late of Victoria, and shook hands all round. The Victoria team will challenge the winners of the championship match (Capitals vs. Shamrocks) to-morrow.

VANCOUVER'S CONGRATULATIONS.

VANCOUVER, Sept. 22.—(Special).—The news of the Victoria Lacrosse Club's splendid fight against the Shamrocks called forth outbursts of admiration among lacrosse people here. All afternoon knots of enthusiasts were discussing the possibilities of the absent conquerors. So far Wm. Taylor, the veteran lacrosse player, whose judgment in lacrosse matters is keenly sought after here, has called the turn in every match. He prophesied three to two in favor of Victoria in the Shamrock struggle, and according to reports that is really the way it stood. Mr. Taylor says good luck will bring the Victoria team back champions of the world. He considers the two greatest teams in the world meet when the Capitals and Victorians cross sticks. The teams are equally matched, but the Capitals have the advantage of playing on their own grounds.

THE WHEEL.

WESTMINSTER FOR THURSDAY.

A special meeting of the Wanderers is to be held on Tuesday evening next to wind up the business of the season and arrange for the representation of the club in the parade at New Westminster on Thursday. None of the Victoria boys are, unfortunately, going into the races, as racing stock is in Victoria very low this year. In other ways, however, the pioneer club of the Province will do their level best to promote the success of the first Provincial meeting.

AQUATIC.

THIS AFTERNOON'S REGATTA.

If the clerk of the weather will vouchsafe to smile, the first annual regatta of the Victoria canoe club, to be held on the harbor to-day, will long be remembered with pleasure. No point has been missed in the matter of preliminary arrangements, and the entry list shows that all the ten events on the card will be well contested. The programme will be taken up at 2 o'clock sharp, and it is hoped to finish it by 6 o'clock. As evidence of the true sportsmanlike character of the J. B. A. A., its members are working heartily to ensure the success of the canoe club's gala day, and the James Bay club house, as well as that of the V. C. C., will be thrown open to visitors all this afternoon. The canoe club crew to paddle against the Bays in the race for thirteen paddle Siwash

war canoes was picked yesterday, and the rival teams are now announced as below: Victoria Canoe Club—Ed. Pitt (captain), T. S. Gore, A. S. Gore, C. M. Page, O. T. Page, K. Middleton, J. B. Carmichael, William Williams, J. E. Crane, H. C. Macaulay, H. R. Foot, A. Barker and T. N. Hibben.

James Bay Athletic Association—G. F. Askew, J. Watson, D. O'Sullivan, W. Scott, C. E. Bailey, D. T. Jones, J. W. Wilson, W. Askew, R. J. Ackland, O. Fawcett, J. W. Hutcheson, F. S. Widdowson and Ross Monro.

THE "VALKYRIE" ARRIVES.

NEW YORK, Sept. 22.—The Earl of Dunraven's yacht Valkyrie, challenger for the America's cup, arrived this morning after a rough passage of thirty days from Southampton. The running was from 40 to 225 miles per day, and no serious accidents occurred to mar the trip. Captain Cranfield, master of the Valkyrie, reports passing the wreck of a large vessel fully equipped and floating bottom up, on September 16, in latitude 41° 40', longitude 61° 10'.

FOOTBALL.

RUGBY THIS AFTERNOON.

The Victoria Rugby Football Club will have their opening practice game of the season at Beacon Hill this afternoon, at three o'clock. All members are requested to be present. The committee has decided to have additional practices on Tuesday and Thursday afternoons for all who can attend. Several officers from H. M. navy will take part in the game this afternoon.

CRICKET.

THE "ATALANTAS" VICTORY.

The Atalanta cricket eleven, under the able captaincy of the veteran Mr. Foulkes, played against a strong combination of H. M. S. Garnet and Royal Arthur yesterday, and vanquished the navy by fifteen runs. One of the Atalanta batters in finest form ran up the score of eighteen—in fact the midshipmen were entirely out of it.

HERE AND THERE.

A joint meeting of the Vancouver and Westminster lacrosse teams is to be held this evening to discuss the proposed tour to California during the Midwinter Fair. The Sunflowers will hold their first Rugby practice this afternoon. All juniors desiring to play are invited to be on hand.

THE Y.M.C.A. baths, at the Point. Ellice bridge, will be closed to-day, and immediately taken out of the water and put in order for winter storage.

ALL members of Pride of the Ridge lodge, I. O. G. T. are requested to meet in the Odd Fellows' hall, Spring Ridge, on Monday, when business of importance will come up for transaction.

THE entertainment under the auspices of Sullivan lodge, A. O. U. W., given in the Odd Fellows' hall, Spring Ridge, last evening, in point of attendance surpassed anything of its kind held in that building for many months past. Provision had, however, been made for the large audience and a well varied programme of a literary and musical character was furnished. It was as follows: Song, Mr. Leroy; duet, the Misses Van Volkenburg; reading, Mr. Scowcroft; song, Mr. Ferris; song, Miss Lizzie Tugwell; song, Miss Gracie Phillips; address, Rev. P. H. McEwen; clog hornpipe, Mr. Ferris; song; remarks, Mr. Sprag; duet, Mrs. Spofford and Mrs. Clyde; recitation, Miss Bamfield; song, A. E. Wescott; song, Miss Johnson; reading, T. Houghton; song, Mr. Snyder; comic duet, Messrs. Ferris and Healey, and song, Prof. Rene Quentin.

THE outcome of the demand of the bricklayers' union that the inspectors or clerks of works on the Spring Ridge sewers and the new schools shall be practical masons, is awaited with no little interest, as neither the City Council nor the School Board appears to be inclined to make any change in consequence of the letters received. In the case of Mr. Murray, the inspector on the Spring Ridge sewers, whose appointment was criticised at the City Council meeting yesterday afternoon, inquiry elicits the information that it is not correct to describe him as a mere carpenter, who knows nothing of brickwork. He is said, on the contrary, to have had experience as an inspector of masonry in the old country, and to be a qualified civil engineer. With respect to the schools, a member of the board said last evening that the trustees did not intend to take any action with respect to the letter received, as the bricklayers were engaged by the contractors and not by the board. "We do not propose to yield a point," he added, "for if we gave in to this demand from the bricklayers we would probably hear next from the carpenters, the plasterers, the roofers or the plumbers to the same effect, each body wishing one of its own members appointed as clerk of works. The men already chosen are well capable of filling the positions, and we will stick to them until they are shown to be incompetent."

An American Swindler.

LONDON, Sept. 22.—George Perkins, a self-styled American barrister, son of Judge Perkins, was charged in the Bow Street Police court to-day with obtaining goods and money by false pretences from Foster & Co., printers, and another firm. In the former case Perkins said the goods were for Lord Compton. He was remanded pending Lord Compton's appearance in court. Perkins is also charged with stealing title deeds relating to property in California owned by a man named Thompson, which he sent to America.

JAPANESE leather wall papers, especially suited for daddies, handsome and durable, at Weiler Bros.

Reindeer Brand Condensed Milk.

"I am satisfied that the original milk from which the 'Reindeer Brand' is prepared is of unusual richness. In point of flavor, color and consistency it leaves nothing to be desired."—Dr. Otto Hehner, Hon. Secy. of Socy. of Pub. Analysts, London, Eng.
For Outlets of all sorts try "Reindeer Brand" Condensed Coffee. Ten hundred out of every thousand consumers pronounce it "Excellent." Sold by First-Class Grocers everywhere.

THE TRURO CONDENSED MILK & CANNING CO., LTD., MANUFACTURERS, TRURO, NOVA SCOTIA.

THE RING.

Corbett and Mitchell—Solly Smith and Dixon.

NEW YORK, Sept. 22.—Charlie Mitchell's last public appearance will be at the feather-weight championship battle next Monday night, between Solly Smith and Geo. Dixon. From that time out Mitchell declares he will shirk publicity as much as possible and pay more attention to his condition and general health. Mitchell will have a special box reserved for himself and friends at the fight on Monday night. Jim Corbett will also be on hand and, as in Mitchell's case, will have a private box for himself and friends. Corbett will not leave Ashbury Park for the scene of the great battle until Monday, while Mitchell will remain in the vicinity of the Metropolis until Sunday, when he will visit the club house as a guest of the seaside organization. In speaking of the contest to-day the English champion said that in his opinion Dixon should win after a hard battle. Corbett thinks Solly's chances are excellent, although he refuses to be quoted as saying that Smith will win. Smith is in great shape for the big battle, and feels as confident of winning as any fighter ever did. At present he is down to 116 pounds, and will keep himself at this figure until Monday afternoon. Dixon is also the picture of good health. He has trained faithfully for this event, which has been unusual with him for some time back.

PERSONAL.

Dr. Leitch was a passenger from the Mainland last night.

Miss Van Volkenburg was a passenger from the Sound yesterday.

J. B. Fisher came over from the Mainland by the Premier last evening.

Simon Leiser and J. E. Crane returned from the Mainland yesterday evening.

Superintendent of Police F. S. Hussey came back from Vancouver last night.

W. C. Ward, of this city, was registered at the Manitoba, Winnipeg, on Tuesday last.
